## Introduce your scheme to neighbours

Introducing your scheme to your neighbours can be an overwhelming experience, especially if you do not know all your neighbours already. So sometimes its easier to write a letter or pop a leaflet through their letterbox to introduce yourself, reasons why you want to start a scheme in your area, or simply to invite them to become part of your scheme.

We have a variety of materials available to you to get you started.

### Coordinator Calling Card:

This is also available in black and white to reduce amount of ink needed.

The size of this document is A6 (postcard size)

### Starting a scheme in your area

Starting a scheme is a very important decision for a person to take, it means that they want to be active in their community and make a difference, by making it a stronger, safer and more resilient place to live. Achieving this by being more neighbourly, looking out for each other and taking positive action to reduce crime and the fear of crime.

**2** **Once registered as a member, you need to join or start a scheme**

To do this, log into your account by clicking on Login from our website or by entering <https://ourwatchmember.org.uk/> - Click on SCHEME ADMIN and you will be given the option to join a local scheme or if there isn't one which covers your road, then you can start a scheme by selecting the option at the bottom left of the screen. Contact your Force Area Association to complete your registration.

The person that starts a scheme is called a coordinator and they act as a contact for the local policing team and NW Association and pass this information on to their members/ neighbours. Being as proactive as possible makes a huge difference in connecting your community

**3** **Become an ACTIVE member/lead for your scheme and make your area safer**

Talk with your neighbours about keeping your community safer and raise awareness of issues. Actively make differences in your community and work together to be more resilient.

A Force Association supports and approves schemes and members across their region and provide essential resources, such as support, signage, stickers and training, provide links to contacts from partners and act as the main support of Neighbourhood Watch on a localised level.

## Promoting Neighbourhood Watch – Social Media assets

Many of us use social media to encourage people to join our schemes and raise awareness of issues in our communities and how to reduce risk. The power and the reach of these platforms enables us to raise awareness, not to just our neighbours, but to a much wider audience. It is important that we produce eye catching material so that the viewer stops scrolling when it sees our posts. We have produced various images for you to use on several platforms.

Please feel free to download the content for your own use.
